I wasn't aware there were authorization boundary issues in San Pedro.

Additionally, once again, we have been provided SRs with no photos and asked to turn them around quickly. Likely not all of these streets have active encampments we need documentation of that to authorize them.

Based on her conversation, it sounded like they messed up the authorization boundaries at the UHRC level, is that correct? If so, just wanted to confirm that these new boundaries are approved for Monday's clean up in San Pedro.
